

I would like to formally recognize the PAVMT telehealth course delivered via webinar for our Physician Assistant students. The course was exceptionally well organized and provided an engaging, interactive learning environment that encouraged active participation and critical thinking.

Students consistently described the experience as informative, practical, and highly relevant to modern clinical practice. The webinar format was effectively utilized to promote discussion, case-based learning, and real-world application of telehealth principles.

We sincerely appreciate the effort and expertise that went into developing and delivering this course. It has made a meaningful contribution to the professional growth and clinical preparedness of our Physician Assistant students.

Thank you for your commitment to excellence in education.

Sincerely,

Lauren Morris, DMSc, PA-C
